Fullstack Academy

Remote

Senior Software Engineer Feb 2024 – June 2024 Top-ranking graduate of the online full-time full-stack web development bootcamp.

- Learned advanced HTML, CSS, and Javascript implementation and methodologies; application development with React; database design with Prisma; API creation with Express.js and complete integration and unit testing with Jest.
- Worked in different teams to build 2 fully functional full-stack applications. Utilized pair and mob programming during both projects.
- Created an e-commerce app. Wrote code to import public API data into a new database. Deployed app to Netlify and database to Render.
- Developed a full retro-feeling side-scroller game with vanilla JS and *canvas* with a team of 4 in under 3 weeks. Deployed both app and database to Render.
- Acted as project manager while working on side-scroller game, implementing tickets, lanes and pull-request best practices. Configured GitHub for continuous integration testing. Performed code reviews for the team.

Community.co

Remote

Community Manager July 2019 – June 2023 Acted as the sole community strategist and manager for an executive based community with a focus on increasing their engagement and reach through our development.

- Designed and coded Apps Scripts against hand-collected data to drive engagement and retention projects.
- Created KPI using qualitative and quantitative member data, and achieved desired growth goals over time.
- Managed VIP, CEO, and Influencer publishing through major US based business publications, including Forbes.
- Outreach to the community increased activity from 2
- Planned and managed community events, activities, and programs.
- Primary trainer for all new team members in community tactics and reporting.

Internet Brands

Remote

Community Manager July 2013 – July 2019

- Engaged with the community to create a pipeline of bug reports and feature suggestions that fed into the product and engineering teams output.
- Simultaneously managed the community and customer service teams, moderation teams, and administered the community forums.
- Implement new site rules, policies and standard operating procedures to satisfy legal and business needs on an ongoing basis.
- Increased moderator productivity and customer satisfaction across our portfolio of websites from 61
- Created and implemented user-generated content contests and events resulting in increased retention over my tenure.
- Managed all customer support issues requests and resolved all abuse reports in accordance with legal mandates.

Skills

Languages	
JavaScript	SQL
