

H.R. Johnson
7706 E Michigan Ave
Kalamazoo, MI 49048

June 25, 2024

Dear Hiring Manager,

I am eager to apply for the Senior Staff Software Engineer position at Stryker, especially after my last visit to the Kalamazoo Valley Museum. I count myself proud to be one of the many people who love to build things to call Kalamazoo home.

With over a decade of experience in full-stack development, community management, and project leadership, I'd like to believe I am a good fit for the R&D Integrations team. My recent re-education at FullStack Academy has equipped me with expertise in modern web development technologies and best practices.

While my primary experience is in JavaScript and related frameworks, I am eager to expand my expertise to include C#, .NET, and cloud platforms such as Azure and AWS. I have a proven ability to learn and adapt to new technologies quickly. My experience includes leading teams, mentoring juniors, and conducting code reviews to ensure high-quality code and effective project delivery.

Thank you for considering my application. I look forward to discussing how my skills and experiences align with Stryker's goals and how I can contribute to the R&D Integrations team.

Best,

A handwritten signature in black ink, appearing to read 'Hannah Johnson', with a large, stylized initial 'H' and a long, sweeping underline.
