FullStack Academy Capstone Projects

E-Commerce App: PokeDealers ∥ Developer   May 2024

Worked with 2 other developers on a full-stack e-commerce application to provide a user-friendly online shopping experience for Pokemon. Utilized React for the front-end, Express.js for the back-end API, and Prisma for database management. Code located at github.com/Charmelions/charmelions.

Alley Cat: Retro Side-Scroller Game ∥ Project Manager & Developer   June 2024

Led a team of 4 developers in building a retro-feeling side-scroller game using vanilla JavaScript and HTML5 canvas. Implemented project management best practices, including tickets, lanes, and pull-request workflows. Implemented continuous integration testing and performed code reviews for the team. Code deployed at github.com/Cherry-Stone-Studios/Cherry-Stone-Studios.

Experience

Fullstack Academy, Remote ∥ Student   Feb 2024 – June 2024

- Top-ranking graduate of the online full-time full-stack web development bootcamp.
- Learned advanced engineering through hands-on projects and coursework.
