Kalamazoo, MI || (360) 951-0354 || find.serendipity@gmail.com || linkedin.com/in/findserendipity

Strategic Developer Community Manager with 7+ years of experience bridging the gap between engineering and marketing. Uses full-stack training, AI-driven automation, and data telemetry to scale digital campaigns, nurture open-source ecosystems, and deliver high-impact insights to executive partners.

Core Competencies

- **Developer Relations & Data Analysis:** Developer workflows, GitHub environments, open-source etiquette, technical content, developer ecosystems, tracking KPIs, translating community data into visual wrap-ups, custom Google Apps Script automation.
- **Community & Project Management:** Platform administration, scale moderation programs, user support triage, Discord/forum management, incident escalation, end-to-end campaign lifecycles, Agile/Kanban, cross-functional collaboration.
- **Technical Engineering & Architecture:** JavaScript, TypeScript, React, Node.js, SQL, Git, GitHub Actions, automated testing.

Professional Experience

Founder & Tech Community Consultant || *Communitrix*, **Remote** Sep 2023 – Present

- Consult for technical communities, engineering static web assets and building central developer documentation, Knowledge Bases, and comprehensive FAQs.
- Resolve complex developer-adjacent hardware configurations, custom rig builds, firmware updates, and peripheral software integrations.
- Leverage generative AI workflows to accelerate administrative tasks, generate data tracking queries, and automate delivery pipelines.

Community Manager || *Community.co*, **Remote** July 2019 – June 2023

- Managed campaign lifecycles for high-profile client networks, successfully scaling platform engagement metrics from 2% up to 7%.
- Programmed custom Google Apps Scripts to automate community workflows, streamline reporting, and capture clean user feedback loops.
- Recruited, trained, and managed a distributed team of contractors and support associates in data collection and performance reporting.
- Mediated technical feature requests and software bug trackers cross-functional between external partners and internal engineering teams.

Community Manager & UX Liaison || *Internet Brands*, **Remote** July 2013 – July 2019

- Administered high-volume platforms, increasing customer satisfaction from 61% to 96% via targeted community initiatives.
- Authored technical support documentation, user tutorials, and functional UX wireframes for active engineering sprints.
- Directed large-scale forum moderation programs, overseeing daily support ticket triage and resolution workflows.

Community Manager || *Breaktime Studios*, **Remote** Jan 2013 – July 2013

- Coordinated mobile gaming live-ops, acting as the primary link between global player bases and engineering teams.
- Aggregated and prioritized technical user feedback, crash logs, and bug telemetry to guide active sprint cycles.

Technical Projects & Software Engineering Exposure

Project Manager & Developer *Fullstack Academy Capstone Cherry Stone Studios* June 2024

- Led a 4-developer engineering pod, governing the deployment pipeline using GitHub, pull request reviews, and continuous integration (CI) testing.
- Ran public usability play-testing blocks to capture community feedback and systematically optimize core user experience constraints.

Education & Credentials

Fullstack Academy || Top-Ranking Graduate, Full-Stack Web Development Bootcamp **2024**

University of Washington || Bachelor of Arts, Summa cum laude **2011**
