

Hannah R. Johnson

Kalamazoo, MI || (360) 951-0354 || find.serendipity@gmail.com || [linkedin.com/in/findserendipity](https://www.linkedin.com/in/findserendipity)

Solutions oriented and analytical Associate Product professional with a background in full stack software development and 7+ years of experience managing cross functional technical operations. Expert at breaking down ambiguous user friction points into structured technical specs, optimizing workflow pipelines with custom automation, and analyzing metrics to drive data informed decisions. Proven ability to translate user feedback into clear product requirements.

Core Competencies

- **Product Strategy & Requirements:** Technical scoping, data-driven prioritization, user persona empathy, experiment analysis, A/B testing insights, cross-functional collaboration, technical writing.
- **Workflow Automation & AI Literacy:** Prompt engineering, custom automation loops (Google Apps Script), system integration logic, workflow optimization, data collation pipelines.
- **Cross-Functional Collaboration:** Agile/Kanban frameworks, engineering partnership, stakeholder management, discovery workshops, UX/UI feedback loops, Zendesk and ticketing ecosystems.

Professional Experience

Technical Operations & Automation Consultant || *Communitrix*, **Remote** Sep 2023 – Present

- Partner with mid market networks to map end to end user journeys, discover systemic friction points, and engineer centralized knowledge frameworks.
- Leverage emerging generative AI tools and custom prompt workflows to accelerate user information discovery, optimize business processes, and scale operational efficiency.
- Analyze platform usage metrics and user environments to isolate technical bottlenecks, transforming raw data into performance reporting tools for stakeholders.

Customer Success & Support Operations Manager || *Community.co*, **Remote** July 2019 – June 2023

- Acted as a core liaison between high touch enterprise users and internal software engineering squads, translating raw user feature requests into clear development specs.
- Programmed custom Google Apps Scripts to automate repetitive reporting mechanisms, optimize feedback collation pipelines, and drive system engagement from 2% to 7%.
- Partnered cross functionally with relationship managers to run system discovery blocks, gather platform integration requirements, and deliver structured launch playbooks.

Customer Support Specialist & UX Liaison || *Internet Brands*, **Remote** July 2013 – July 2019

- Evaluated high volume user feedback and bugs across complex platform ticketing environments, optimizing internal triage patterns to elevate customer satisfaction from 61% to 96%.
- Collaborated directly with product managers and UX teams to systematically capture usability friction points and inform platform roadmap priorities.
- Developed rigorous, data informed operational checklists and training guides to standardize onboarding execution across distributed support pods.

Technical Projects & Product Leadership

Product & Project Manager (Technical Pod Lead) || *Fullstack Academy Capstone* June 2024

- Managed the product lifecycle for a 4 person technical team using Agile/Kanban methodologies, defining the MVP feature set, daily sprint triage, and system goals.
- Orchestrated user testing blocks to collect precise usability telemetry, iterating rapidly on interface layout and functionality to optimize the user onboarding flow.

Education & Credentials

Fullstack Academy || Graduate, Full-Stack Web Development Bootcamp **2024**

University of Washington || Bachelor of Arts, Summa cum laude **2011**
